Calhoun Vaccination  
Dr. Max Seville has informed this office that he is now ready to do calhoun vaccination in districts that are organized. By organization we mean farmers getting together and organizing their districts so that when the Veterinarian arrives very little time is lost rounding up calves or finding the farmer away. It is only through the organization of the district that calhoun vaccination can be kept down to a minimum. If you are not organized and you wish your calves vaccinated the Vet will be forced to charge mileage and work by the hour. Dr. Seville has informed me that due to his large district in both Saskatchewan and Alberta he will only be able to do the vaccinating on an organized basis. The cost of calhoun vaccination is 75c per head when organized. It is only through good organization that we are able to reach every farmer and thus stamp out this dread disease.

**"Save the Soil" Campaign**  
A series of Agricultural Meetings, in conjunction with the "Save the Soil" Campaign, have been completed once more. I might just take this opportunity to say how disappointed we were with some of the turn-outs. Chauvin, Edgerton and Irma were particularly poor. The Wainwright meeting sponsored by the Wainwright and District C. of C. and Agriculture was very good, with every nice turn-out of farmers. It could be said that part of the poor attendance could be attributed to the extremely fine weather we have experienced the past couple of weeks, and the farmers are making good use of every minute to get things in shape for winter. Really I don't blame them as I would most likely do the same thing. We are suggesting another series later on when the farmer has very little excuse to stay home. At that time we hope to see a good turn-out and plenty of enthusiasm towards Soil Conservation and Weed Control. There is one thing the poor attendance suggests, and that is that those who stay home are perfectly satisfied with the present set-up.

### Former Viking Lady Dies at Hardisty

MRS. JANE KIEFER

Although not entirely unexpected, the passing of Mrs. Jane Kiefer of Hardisty came with a shock to the large number of friends with whom she was acquainted. Mrs. Kiefer had been ill for some time and had only recently been brought home to the hospital in Hardisty where it was hoped she was making slow progress. Death came on Thursday, October 27.

Mrs. Kiefer was born in Stockport Lancashire England. She came to Canada in 1918. Early in the century she and her husband resided at Viking, later moving to Daysland; in 1920 the family took up residence in Hardisty.

Besides her loving husband, she leaves to mourn her loss, one son, Richard of Hardisty; one sister, Mrs. E. Beary of Vancouver; two brothers, Hugh and Richard, and one sister, Mary in England.

Funeral services were held from St. Mark's Anglican Church in Hardisty on Sunday, October 30, and interment was made in the Hardisty cemetery. Pall bearers were: F. C. Matton; Frank Matthews, Charlie Olson; J. H. Perkins; W. R. Aalde and Jim Johnston.

Rev. W. Brooks officiated and F. B. Kirkman was Funeral Director. — Sedgewick Press.

### Curling Season to Start With Farmers' Bonspiel

A well-attended and enthusiastic meeting of the Curling Club held October 27, dealt with a large amount of business preliminary to the curling season. Last year's executive, consisting of L. S. Reed, president; C. Smallwood, vice-president; and D. Gunn, secretary-treasurer re-elected, with one dissenting vote, cast by an anarchist. The 1949-50 season will begin with the farmers' bonspiel. Previously this popular event has been held between Christmas and New Year's, but it was the feeling of members present that the earlier date will permit more farmers and their families to take part. Rinks entering are to have no more than two experienced players. Anyone who has played in more than two bonspiels shall be considered experienced. A Farmers' Bonspiel Committee, consisting of Mr. W. Lawson, Mr. E. Jones and Mr. S. Fenton was elected. These happy fellows have the responsibility of deciding the date (in conjunction with the weather), settling any and all disputes, and deciding the matter of fees.

Because of the rising cost of the Club's existence, fees were raised to \$11.00 for men, \$5.00 for ladies, and \$3.00 for students. Hiring of a caretaker was left with the executive. Messrs. C. Anquist and I. Bolger, as Ice Committee, will see that the caretaker's time is well occupied, while Messrs. C. Milne, C. Coffin and C. Smallwood as Draw Committee guarantee to keep the members curling and happy. The Bonspiel Prize Committee is made up of Messrs. S. Brown, V. Torrance and R. Kirkman.

It was decided to hold both open and mixed bonspiels again this year. The open bonspiel will be held January 10, 11, and 12. Rinks will be selected in the same manner as they were last year. Any four persons may form a rink, and members, and those wishing to become members, are advised not to wait until some local Manahan or D'Amour button-holes them, but to find other pleasant gentlemen who want to curl and form rinks. Anyone who has not taken a place on a rink within a reasonable time, may give his name to the president or secretary, who promise to do their best to place him.

The rocks have been sent to a well-known Edmonton firm to be sharpened. This action, incidentally resulted in the executive's receiving an invitation to become agents for the company's tombstones. The executive will decline with thanks, feeling, as it does, that any sharp rocks, good ice and good company, the club will enjoy this curling season even more than those of past years. Come and help us do it.

### Recent Bride Elect Feted At Shower

On the evening of November 1 Hedley's Hall was happily decorated with a combination of Halowe'en cut outs and pink and white wedding bells and streamers. In the centre was an ideal "Egg Station" complete with window boxes filled with real flowers and surrounded by beautifully landscaped grounds where evergreens, gravel walks, duck ponds and flower beds abounded.

The occasion was a very bountiful shower in honor of Ye Local Editor who had recently become Mrs. Harry Riley.

The evening was spent with games and singing, led by Mrs. Long, Mrs. Inglis, Mrs. Black and Mrs. M. Enger. From time to time very unusual telephone calls were made to the Irma Times by a number of those present.

Mrs. Targett read an original story and Mrs. R. Simmerman sang "Bless This House."

Then to the astonishment of all, that sedate group known as The Ladies Choir began to sing "Roll Out the Barrel!" We couldn't believe our ears—nor yet our eyes—when Mrs. M. Enger dressed to represent the bridegroom, brought in an oil barrel filled with shower gifts.

Assisted by Mrs. Inglis and Mrs. K. Coffin the bride unwrapped a most wonderful array of useful and beautiful presents. When these had been duly admired Mrs. Riley expressed her thanks and the ladies choir assisted by many others topped off the evening by serving a splendid lunch.

shower we have found it impossible to get the names of all the hostesses, etc. We understand that the decorations were mainly the work of the choir and that Mrs. Reeds, Mrs. Charter and Mrs. A. Enger aided and abetted by Messrs. F. E. Yarr, A. C. Charter and Jas. Wood were responsible for the "Egg Station" and its park-like surroundings.

### Glen-Coa Cleanings

This column desires to extend its best wishes to Mr. and Mrs. H. Riley that the future may be bright and prosperous for them. Heartiest congratulations!

## The Peace Prize

THE ANNOUNCEMENT THAT THE Nobel Peace Prize for 1949 had been awarded to Lord Boyd Orr, was received with interest in this country. An outstanding agriculturalist and the director-general of the Food and Agriculture Organisation of the United Nations from 1946 to 1948, Lord Boyd Orr is known to many people here. He has long advocated a world food board to combat hunger, and for a plan by which the distribution of food would be based on the needs of the people rather than upon economic considerations. It is believed that it was for this leadership in social thought he was awarded the Peace Prize, although the Nobel committee does not give the reasons for which the winners are selected.

### Established By Alfred Nobel

The prize is given from a fund established in Norway in 1896 by Alfred Nobel, the inventor of dynamite. Parliaments and governments of all countries may present candidates, as may the members of the Norwegian Nobel committee, and professors of philosophy, economics and current history at universities. Previous winners of the prize, and the Bureau of Peace at Geneva may also suggest persons for the honor. No prize was awarded in 1948, and in 1947 it was won by the American Friends Service Committee and the Friends Service Council of London. The award amounted this year to \$21,889 in American money, and Lord Boyd Orr has announced that he will use it for the promotion of world peace.

### Proposes To Carry On Work

Lord Boyd Orr, who was born in Angus County, Scotland, in 1880 and graduated from Glasgow University in medicine, science and arts, is a practical farmer as well as an outstanding nutritional and agricultural scientist. His unceasing interest in raising standards of nutrition and in improving agricultural production throughout the world have made him an outstanding figure in these fields. He proposes to continue fighting hunger, and to continue also to call for "a world food plan which would get governments, instead of quarrelling about political obstructions, to cooperate in a concrete plan to double food production." It is with satisfaction that his friends in Canada, and others who have followed his work through the years, learned that he had won the Nobel Prize for Peace in 1949.

TRAIL, B.C.—Carl Arthur Gorey of nearby Castlegar, B.C., has an educational hobby—he collects scholarships.

He added two more recently, one from Queen's University at Kingston, Ont., and the other from Montreal's McGill.

Carl has accepted the McGill award, which will bring him \$300 a year until he graduates.

The Queen's award was for \$1,244. Previously he won a \$200 University of British Columbia Royal Institute scholarship.

The former Trail-Tadanac high school student will take a McGill science course, prior to entering medical school.

### CINNAMON CHERRY PIE

2 1/2 cups pitted sour cherries, canned  
1/2 cup sugar  
1/2 teaspoon salt  
1/2 teaspoon cinnamon  
2 1/2 tablespoons quickening-cooking  
2 tablespoons butter  
8-inch pie shell  
Drain syrup from cherries. Combine sugar, salt, cinnamon and tapioca. Add syrup; bring quickly to boil over direct heat, stirring constantly.

Remove from heat and add butter. Cool, stirring occasionally. Add the thickened cherries as it cools. Add cherries; pour into pie shell. Top with meringue and brown in 400 deg. F. oven.

### BAKED HONEY CUSTARD

1 1/2 cups slightly beaten  
1/2 cup honey  
1/2 cup vanilla  
1/2 teaspoon cinnamon  
Scald milk. Combine eggs, honey and salt; add milk slowly until well blended. Turn in small custard cups, place in pan of hot water (about 100 deg. F.); the water should come close to top of custard. Bake in moderate oven (350 deg. F.) 25 to 30 minutes or until firm. A knife point should come out clean when inserted part way into centre. Sprinkle with cinnamon. Cool. Yield: 6 portions.

### Finds Evidence Of Cultured Arctic Race

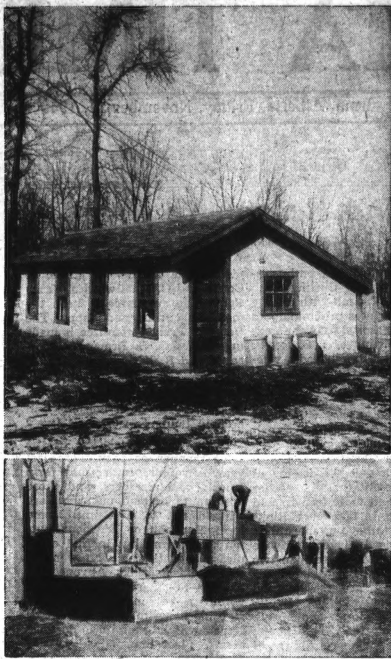

WASHINGTON.—Fiction writers who dream up lost civilizations got a boost from the eminently scientific Smithsonian Institution.

Dr. Henry B. Collins, Jr., of the institution, reported he had found evidence of a cultured race that lived in now uninhabited Canadian Arctic wastes more than 500 years ago. Collins identified the race as the "Thule" people.

Collins said he found samples of exquisite art work in ivory carving, remains of well constructed stone houses, a pottery lamp and a seal skin bag for whale oil.

### Early Detection Necessary

Cattle that are allowed to become thoroughly infested with lice will develop a dry starey coat, loss of hair resulting in exposed patches of skin and a general unthrifty appearance. Such a condition brings lowered milk production, retarded growth and costly maintenance. Early detection of lice and prompt treatment with sprays, dips or powders will prevent any ill effects to infested animals.

### Small Town Fire Brigade Tops Province

EDSON, Alta.—Led by one of the youngest fire chiefs in the country, Edson's volunteer fire department is causing quite a stir among Alberta fire fighters.

One of the reasons is that 30-year-old Chief Don Riggan and his 12 men believe that vigilance is the price of fire safety even in the smallest town.

The department has competed against fire departments, some of them full-time paid brigades, in many smaller towns and larger centres such as Lethbridge, Red Deer, Calgary and Edmonton. In Calgary, they defeated all comers in the provincial hose-laying contest recently, laying 200 feet of hose in 32-4-5 seconds.

Their proficiency isn't just a matter of working at hose-laying in preparation for such competitions. Recently they held a safety drill at Edson's hospital, evacuating walking patients within 19 seconds of the alarm and having bed-ridden patients ready to leave by a fire chute in the same time.

Chief Riggan says continued vigilance and weekly practices are the secrets of the department's success.

## Four Rookies Of National Hockey League Born In Western Canada

Less rookies are performing in the National Hockey League as the 1949-50 season gets underway than there has been for the last few years. Thirteen fresh faces will be seen dotted among the lineups of the six N.H.L. teams this season whereas only three seasons ago, 20 players were making their debut in hockey's big tent.

Boston Bruins, besides having the only first-year coach in the N.H.L., also have the most first-year players. Coach Buck Boucher has four players cutting their National League teeth. They are Goalie Jack Golin, Centre Phil Maloney and Wings Dave Creighton and Zello Topazzini.

New York Rangers and Chicago Black Hawks are next with three rookies apiece. The trio of New York freshmen are Gus Kyle, a defenseman, "Bing" Juckes, and Bill McDonagh, forwards. The Black Hawks' trio are Wings Bert Olmstead, Defenseman Jim Bedard and Centre Ray Powell. Detroit Red Wings have two players striving for their varsity letter. The two new Red Wing players are Forwards Steve Black and Fred Glover. Montreal Canadiens' lone rookie representative is Gilles Dube, a French-Canadian left winger.

The Stanley Cup champion Toronto Maple Leafs, who only a few years ago had the greatest number of rookies on their team, do not have a single rookie this season.

Of the 13 rookies, four of these were born in Western Canada, with two of them playing for the Chicago Black Hawks, namely Jim Bedard and Bert Olmstead, while Gus Kyle and "Bing" Juckes are playing for the New York Rangers.

Chicago's new defenseman is a 6' 1", 200-pounder by the name of Jim Bedard. He played for Kansas City last season and had six goals and nine assists. A big, rugged athlete, he was born at Moose Jaw, Sask., on January 6, 1928.

Left winger Bert Olmstead played nine games for the Black Hawks last year and picked up a pair of assists. The good-looking puckster was an outstanding player for Kansas City and in 52 games racked up 33 goals and 44 assists for 77 points. Born at Scarboro, Sask., on September 4, 1928, Olmstead is a rangy six foot-two and weighs 175 pounds.

Gus Kyle, a 6' 1", New York 210-

pound defenseman is expected to put plenty of gimp into the Rangers defense this season. Kyle was one of the best defencemen in the Western Canada Senior Hockey League last year and has been watched closely by Rangers for some time now. Born at Dysart, Sask., on September 11, 1922, Gus had five goals and 10 assists for 15 points with Regina Caps last year, although he is noted for his body checking prowess rather than his scoring ability.

"Bing" Juckes is a left winger and was the third highest scorer in the United States Hockey League last season with 40 goals and 44 assists. He played with St. Paul Saints, a Ranger farm club. A scrappy player, Juckes is 5' 8" tall, weighs 165 pounds and was born at Hamilton, Man.

### FOOTBALL TEAM TO TOUR CANADA NEXT YEAR

The Football Association are to send a team to play 10 matches in Canada next year. They will leave for Canada soon after the end of the season in England—around the end of April, 1950—and will probably return somewhere about the beginning of July. The team's itinerary and final details will be discussed when the Director of the Canadian Football Association visits England some time in November.

YOU CAN still find people who "don't believe in banks" ... who keep their cash in old coffee pots, or hide it in the woodpile, or carry it around.

But most folk nowadays keep their money in bank accounts. They can get it whenever they want it; and they can pay their bills by cheque. Canadians have more than seven million such deposit accounts. In terms of Canada's adult population, that makes it practically unanimous.

The banks, in turn, know they must earn this confidence by giving you the best service they know how.

Today you can take your account to any bank you choose. And what is in your bank book is strictly between you and your bank. It is your own private business.

This will only be temporary. Power consumption decreases after the turn of the year; and by next Fall the first of the Spray Lakes Units will be in operation.
